

All session audio is being recorded and will be made available to registered NAATW members through our website behind a login.

Please help us honor our Tradition of Anonymity by using first names only. Anonymity breaks will be scrubbed during post-processing but you can help with that process by when you hear a full name during this session, please write down the time and room where this occurred and share this with the taper immediately after the session or even better drop this information in the Workshop slack channel.

Thank you! NAATW 2019 Steering Committee
