What is a Tech Stack?

A tech stack is the combination of technologies used to build and run an application or project.

What do most A.A. service organizations need for their web presence?

1. An Informational Website
2. An Online Meeting List

Questions to ask yourself regarding WordPress?

1. Can your organization recruit enough trusted servants with WordPress experience, or the ability to learn WordPress, to continuously maintain the site?
2. Can your organization afford to pay for the web hosting needed to run a WordPress website?
3. Does your website require the customization that WordPress allows?

What are GitHub & GitHub Pages?

- GitHub is a website that facilitates software development and version control using Git. It's free to use for open-source projects (repositories).
- GitHub Pages is a free tool that serves a static website composed of HTML, CSS, and JavaScript files straight from a GitHub repository.
